# The archives of the Associates of Dr Bray to 1900 from the USPG archive

The body of records consists primarily of correspondence files, minute books and financial reports for the institution established by Dr Thomas Bray and his associates. The files concern the organisation of the Associates up to 1900, and include annual reports. Documents relating solely to the period after 1900, when the Associates were in decline (e.g. BRAY/f 20-29 in the initial series), have not been reproduced.

Of particular interest in this collection is the material on the Associates' activities in North America, including Canada, and in the Bahamas, both in the establishment and running of their Negro Schools and in the grant of library books. This work was funded in part by "Mr D'Allone's Charitable Bequest for the Conversion of Negroes" (e.g. in BRAY/GENERAL/1/f5).

Much of the remaining correspondence is the result of the provision of Bray libraries in England, Wales and abroad. Detailed financial accounts for the purchase and sending of books to colonial parochial libraries is included and these, with the correspondence from the early 18th century, allow the development and subsequent decline of the organisation to be understood.

The documents are organised by geographical location, except for ledgers of reports and volumes of the minutes of meetings, which are numbered chronologically by subject in a running series. The GENERAL heading denotes home correspondence, meaning that entered into by the Associates of Dr Bray, and REP denotes annual reports.

This archive forms part of the USPG archive, which is now held at the Rhodes House Library, Oxford.

## CONTENTS LIST

	Reel
BRAY/f 1 Minutes of the meetings of the "Associates for Mr D'Allone's charity", a catalogue of the books given by the late Dr Bray to the Associates. 1729/30-1735	1

# **BRITISH RECORDS RELATING TO AMERICA IN MICROFORM (BRRAM) SERIES**

**Published in conjunction with the  
British Association for American Studies**

General Editor: Professor Kenneth Morgan, Brunel University

This major series of microfilms, which began in the 1960s, includes over 100 titles and covers many aspects of American history. Material ranges in time from the colonial period to the twentieth century and in place from Quebec to the West Indies. The series includes records relating to trade, industry, plantations, agriculture and ranching, immigration and settlement, the anti-slavery movement, politics and military affairs. There are personal papers and diaries as well as state documents and the records of industrial and commercial concerns. Primary printed material (newspapers, pamphlets, bibliographies, etc.) as well as manuscript collections are included. Each title is accompanied by a printed guide which contains a short introduction to the microfilmed collection along with a contents listing. A digital version of the guide is also available on our website.

The academic control of the scheme is vested in an advisory committee of the British Association for American Studies (BAAS). The Publishers and the BAAS Committee are constantly seeking to widen the scope of the scheme. Suggestions for material for inclusion in the BRRAM series are welcome and information can be sent to the publishers or the General Editor of the series:
